Professional Summary

Product Manager with 9 years of experience in web and mobile product development across international markets, including Japan, Asia, and Europe.

Experienced in product localization, market adaptation, KPI-driven improvement cycles, and cross-functional product operations for global online services.

Worked on products from market entry to operational improvement phases, including UX optimization, analytics implementation, payment integration support, roadmap planning, and product growth initiatives.

Strong background in collaborating with engineers, designers, marketers, and business stakeholders in multicultural and remote environments. Interested in contributing to long-term product growth and international product development within global teams.
